### Aquarium Checklist for Beginners

Good ones include Amazonia and Azoo substrates. Also start a post here on AA asking for advice; your best resource are other hobbyists who have experience with the fish you are wanting to keep and can give constructive advice so that you choose fish that are suited for your size and type of aquarium and will be happy in their new home.

### Starting a Freshwater Aquarium

Cycling the tank The reason why you cannot put your fish straight into the aquarium is because of nitrogen cycle. Some good adjustable heaters are Aqueon and Fluval. Hardscape Driftwood, rocks, and stones are considered to be hardscape in the aquascape.

### How to Start an Aquarium

If your planning to grow all type of fishes in your aquascape tank, well then good luck with it. All of these are possible with decorative items from your local fish store.

### In 6 Steps: Build Your First Aquascape Aquarium For Beginners

He is indeed known as the father of modern aquascape. Buy one that is designed for the dimensions and shape of your tank. Taking Care of Your New Aquatic Environment A properly maintained aquarium filter means cleaner water and healthier fish.

### Aquarium Checklist for Beginners

For some fish, plants actually help them stay healthy. Set the thermometer as far as possible from the heating element. It gives the plant and fishes a dose of refreshment.

### **Starting A New Aquarium**

It depends on a culture of beneficial oxygen-loving bacteria to eliminate toxic ammonia and nitrite that accumulate in aquarium water. There are many fish foods on the market, too many to go into here. Think of it like Farming but Underwater.

### **A beginners guide to successful fish keeping**

When replacing water in an aquarium, be sure to treat it first. It is a sound initial investment as you will need to use it every time you do a water change.
