Indicator definition of post-2015 targets	Corresponding scoring of census questionnaire content
Indicator 1.1: Percentage of population practicing open defecation	Score S ₁ : those with no sanitation facility can be unambiguously distinguished from those with facilities (1 = true, otherwise 0).
Indicator 2.2: Percentage of population using a sanitation facility that effectively separates excreta from human contact, and ensure that excreta do not re-enter the immediate household environment, and the facility is shared among no more than 5 families or 30 persons, whichever is fewer, and if the users know each other	(1) Score S ₂ : 'basic' sanitation categories can be unambiguously distinguished from 'non-basic' sanitation types (1 if true, 0.5 if true for some categories, otherwise 0). (2) Score S ₃ : 'basic' sanitation facilities can be unambiguously distinguished as private, shared (not public), and public (1 if true for three categories-'private', 'shared' and 'public'; 0.5 if true for two categories, otherwise 0).
Indicator 3.2: Percentage of people who (1) use a 'basic' sanitation facility and (2) whose excreta is safely transported to a designated disposal/treatment site, or treated in situ before being re-used or returned to the environment	(1) Score S ₄ : 'basic' sanitation categories can be unambiguously distinguished from 'non-basic' sanitation types (1 if true, 0.5 if true for some categories, otherwise 0). (2) Score S ₅ : 'basic' sanitation facilities can be unambiguously distinguished as private, shared (not public), and public (1 if true for three categories-'private', 'shared' and 'public'; 0.5 if true for two categories, otherwise 0). (3) Score S ₆ : sanitation facilities have information about the elimination or disposal of excreta (1 if true; 0.5 if true for some categories, otherwise 0).
Indicator components relevant to each criterion score are highlighted in bold

Families in Global and Multicultural Perspective

The opening chapters provide a theoretical overview and a basis for examining family changes and organization patterns from evolutionary and postmodern perspectives. Further, the family gives individuals property rights and also affords the assignment and maintenance of kinship order. The book examines a variety of family lives in western countries and contrasts them with those of families in parts of Africa, Asia, and Latin America.

Roopnarine & Gielen, Families in Global Perspective

The comparisons that are made across societies serve to enhance understanding of family patterns in the United States.

9780761928379: The Family in Global Perspective: A Gendered Journey

SAGE 2455 Teller Road Thousand Oaks, CA 91320 The editors, both qualified scholars with a comparative perspective, have been successful in finding well-known authors for the various chapters.

Families in Global Perspective : Jaipaul Roopnarine : 9780205335749

Students honour the diversity within these celebrations and family backgrounds. In this paper, I examine the causes and consequences of global family change, introducing a recently funded project using the Demographic and Health Surveys DHS and U.

The Family in Global Perspective

The book may have minor markings which are not specifically mentioned.

Families in Global Perspective / Edition 1 by Jaipaul Roopnarine, Uwe P. Gielen

Smith examine a full range of topics including family origin and universality, family functions, marital structure, kinship rules, comparative research methods, family development, marriage adjustment, parenting, divorce, and aging. Contact us for course adoptions; also available for individual

purchase through national wholesalers and retailers. In 2008, 10% of births were to teenage girls, and 14% were to women ages 35 and older.

The Family in Global Perspective

The style is refreshing, particularly enticing for undergraduate readers. Mothers frequently have a very important role in raising offspring, and the title can be given to a non-biological mother that fills this role.
