## J S Bach: Keyboard Works

Machine learning is the process of teaching a computer to come up with its own answers by showing it a lot of examples, instead of giving it a set of rules to follow as is done in traditional computer programming.

## Something of his Art: Walking to Lubeck with J. S. Bach

He worked as an organist, then as a court composer at Cöthen now Köthen and then as musical director at St Thomas's church in Leipzig, producing many hundreds of choral and instrumental works and hundreds of thousands of pages of handwritten parts. He was also initiated into the art of organ playing by his famous uncle, Johann Christoph Bach, who was then organist at the Georgenkirche in Eisenach.

## Celebrating Johann Sebastian Bach

Starting with the eighth fugue, new themes are introduced, but they are all in fact derived from this original theme. It may be supposed that Bach had intended to have this work published under his instruction.
