The results of this summative study, including the extent to which learning was positively impacted by the VR experience, will be shared via the project website. Title: The use of omics technologies to personalise altitude training.

The Maritime Dimension to Scotland's "Highland Problem", ca. 1540

Stanford: Stanford UP, 2009, 31-76. Other countries have experimented with restoration as well: Australia, following New Zealand's pioneering efforts; Canada, 1 another leader, drawing upon various socio-cultural experiments and experiences; the United Kingdom, deriving inspiration from New Zealand, Australia, and Canada; and the United States, providing a mixed climate for restorative-justice theory and practice. Their innovative research traces the connections between the Cold War and contemporary legal constructions of the nation-state, the environment, the third world, and the refugee; and between law, technology, science, history, literature, art, and politics.
