 To calculate enrollment for each year in the  
 forecast period, the progression rate for  
 each grade was applied to the previous  
 year's enrollment in the previous grade.

## Introduction

These data points can give perspective to the implications and potential impact of education policies. For anyone tracking information about student achievement in the states, State Education Indicators with a Focus on Title I can be a useful tool on several fronts: Policy Information: This is the only published report that summarizes state assessment results by state using a common format and a consistent method of reporting scores over time. District-level demographic information on race, ethnicity, and English language learners.
