Johann Georg Röllig

The village was established in time out of mind beside the little stream of Heppach and grew slowly over many centuries.

DNAexplained

The portrait was painted in 1717. The protestant baptism records of Großheppach are available from 1558. Mitochondrial DNA The mitochondrial DNA of Margretha would have been passed on to her children of both sexes, but only females pass it on.

So at least the size and material is original: Then there were two smaller bells. Jewelry such as strings of , ribbons, or lace frills were tied high on the neck. Vendors have linked the steps of matching DNA with matching ancestors in trees.

Italia

I have no idea why. Dette markerte igjen at Italia ble samlet takket være andre makter, og ikke gjennom egen innsats, Sør-Italia unntatt.
