### Accreditation: Postsecondary Education Institutions

For admitted students, scores on standardized tests and undergraduate grade point average.

### Standards and Procedures

Course objectives or expected learning outcomes.

### Accreditation Standards

National Program Standards Application of the Program Standards The Program Standards are contained in the Accreditation Standards and Procedures and identify what is required of high-quality ITE programs.

### AMS School Accreditation

Student Services Students enrolled in the program have the academic credentials, experience, and skills necessary to successfully complete the program in a timely fashion.

### College Accreditation in the United States

The decisions and experiences of trainees may vary from university to university, health care setting to health care setting and jurisdiction to jurisdiction. If a significant element of the provision is technology-based, the educational institution ensures that the learner understands the system requirements.

### Standards

The chief executive officer manages and allocates resources in keeping with institutional purposes and objectives and assesses the effectiveness of the institution. In the case of program elimination, the institution prepares a teach-out plan consistent with Commission policy. The institution does not erect barriers to the acceptance of transfer credit that are unnecessary to protect its academic quality and integrity.
