Perelom

The amount of total taxes increased twofold. Промышленные отходы и окружающая среда. The domestic literature acquisition problems in the Russian State Library.

World Assumptions and Youth Identity as Predictors of Social Activity Preferences. Psychology in Russia: State of the Art

Taking advantage of a broad movement of the popular masses, the boyars and leading merchants drove out Prince Vsevolod Mstislavich in 1136 and formed the Novgorod feudal republic. They established close economic, political, and cultural ties with the indigenous population of the northern Black Sea steppes—the Scythians and other Eastern European tribes.

History (USSR)

Evolution and Style in Camunian Rock Art.

History (USSR)

Организация торговой сети АПК — это достаточно затратный и трудоемкий процесс, так как он подразумевает реализацию многих непривычных для сельскохозяйственного предприятия функций внутри комплекса. Metall — chelovek — vremia.

Soviet & East European Foreign Policy: A Bibliography of English

The balance of power among the classes shifted as a result of the struggle: the feudal aristocracy was weakened, and the service nobility—tried and true supporters of Russian autocracy—gained in influence.
