Period Poverty, a Silent Crisis in the Latinx and Black Communities

Coneval also takes other factors like health care and education into account.

Informal Self

Washington, DC: US Government Printing Office; 2002.

Mexico City Policy puts girls' health at risk

It is inconceivable that almost half of a country with a population of roughly 123 million people lives in poverty, but it is inspiring that one organization could be the difference in changing this nation forever.

Mexico City Policy puts girls' health at risk

They were specifically excluded from nearly all major federal labor laws passed during the New Deal era.

Informal Self

Additional research is needed to increase the evidence base for what can successfully lessen the effects of poverty on health outcomes and disparities. Program for Research on Social and Economic Dimensions of an Aging Population, McMaster University, Hamilton, Ontario, Canada. Yes, we can ease these symptoms with , but there comes a time when there are greater variables involved.
