Through a wide-ranging exploration of loyalist and reform propaganda, newspapers, political caricatures, sermons, and records of prosecution for sedition and treason, Marilyn Morris arrives at a new perspective on the forces of social stability in Britain that prevented revolution and preserved the Crown. This collection is the first piece of scholarship to examine these three events in an interconnected pattern to better examine France as it transitioned from a monarchy to a republic. It furthers the University's objective of excellence in research, scholarship, and education by publishing worldwide.

Their characteristics, the author shows, have an affinity with those of all groups who try to uphold traditional beliefs in a changing world. Benjamin Constant distinguished two kinds of government: unlawful government based on violence, and legitimate government based on the general will. A fractious press heightened these antagonisms; and, above all else, the French came to believe in a 'mal du siècle', and conclude that life was better in the past.
