Aquarium and Tropical Fish Tips

I also recommend that you avoid spots where the aquarium might get hit or where people are more likely to fall into it. This list is not complete but it will give you a few examples of species to look at.

Four Aquarium Fish to Breed for Profit

Raising and housing these fish is easy, but they require a special environment to live in. I recommend doing your research for anything over 20 gallons.

How to Make Money Breeding Fish and Shrimp in Small Aquarium

The durability and homeostasis of the fish are two major key factors to determine the needed water specifications. Feed her floating flake food and freeze dried blood worms.

The Top 5 Tetras for Breeding in the Home Aquarium

Mollies are livebearers, which means the female Mollies do not lay eggs, like most female fish, but release live baby fish. Lutea is a beautiful endangered Hap species that may already be extinct in Lake Victoria.
