### Eugène Atget

But genuinely to understand this, the pompous scholar should see this exhibition: each building, street, and alley has its own personality in Atget's world. The blurred nature of the photo comes from Atget's camera, whose glass plate negative needed a long exposure time to capture great depth of detail his camera was best suited for taking images of buildings, not moving people. For air delivery we use U.

### Lot of 4 Volumes

It was possible for Atget to return again and again to his favorite motifs, for he knew that an infinite number of pictures was potential in them.

### THE WORK OF ATGET by [ATGET]. Szarkowski, John and Maria Morris Hambourg

Originally, the building - a cruciform church, also a Baroque masterpiece, was dedicated to the saint of Paris, Genevieve. His Paris was a private city, with no palaces, and few churches.

### Eugène Atget and Old Paris

Szarkowski, John and Maria Morris Hambourg. He approached the ornament at a slight angle and emphasized the shadow and prestige. The fourth and concluding volume dedicated to the work of Eugène Atget.

### Eugène Atget

The spine may show signs of wear. Accessories may not be included.

### Lot of 4 Volumes

The treatment of light resulted from a masterful technique. His use of light was magical.
