## Biology 337: INVERTEBRATE ZOOLOGY

Work was also being done in the realm of and the study of worms. Christensen; Tardigrada, Roberto Bertolani; Arthropoda-Crustacea, T.

### Invertebrate zoology

All phyla of invertebrates are covered comprehensive with an emphasis on unifying characteristics of each group. This may occur by fission or budding.

### Insects

This treatise is the first to cover all aspects of reproduction and development of the entire spectrum of invertebrates—terrestrial, marine, freshwater, brackish-water, free-living, and parasitic.

### Study Notes on Invertebrates Phyla

The cnidarians then perform extracellular digestion in which the food is taken into the gastrovascular cavity, enzymes are secreted into the cavity, and the cells lining the cavity absorb nutrients.
