NYS Museum Lighting Upgrades

An infrared radiant heating system was installed at their Jamaica Maintenance Shop to help heat the shop more efficiently.

Energy Efficient Lighting Project Reduces Greenhouse Gas Emissions • News • Purchase College

The town is very thankful to all agencies that worked cooperatively to bring this project to the Town of Skaneateles. This chiller project will lead to a reduction of over 11,000 tons of CO2 annually. As we seek to take full advantage of extraordinary opportunities, access to better data is more important than ever.

New York Power Authority announces completion of lighting upgrades at Niagara Falls Housing Authority

Quinones GQEnergy is the President and Chief Executive Officer of the New York Power Authority. The recently passed Climate Leadership and Community Protection Act mandates the Green New Deal's nation-leading clean energy targets: nine gigawatts of offshore wind by 2035, six gigawatts of distributed solar by 2025, and three gigawatts of energy storage by 2030, while calling for an orderly and just transition to clean energy that creates jobs and continues fostering a green economy.

NYS Museum Lighting Upgrades

This project proposes to develop a Deep Learning DL -based tool capable of identifying and predicting system issues, alerting operators and recommending possible solutions.
