

# Rock geochemical alteration studies at the MacLellan Au-Ag deposit, Lynn Lake, Manitoba

Manitoba Energy and Mines, Geological Services - List of GSC Publications

Description: -

-  
Geology -- Manitoba -- Lynn Lake Region.  
Geochemistry -- Manitoba -- Lynn Lake Region. Rock geochemical alteration studies at the MacLellan Au-Ag deposit, Lynn Lake, Manitoba

-  
The Johnston-Willis series  
ER92-1.  
Economic geology report (Winnipeg, Man.) ;  
ER92-1  
Economic geology report ; Rock geochemical alteration studies at the MacLellan Au-Ag deposit, Lynn Lake, Manitoba  
Notes: Includes bibliographical references (p. 77-80).  
This edition was published in 1992

Filesize: 20.84 MB

## Sedimentary basin controls on orogenic gold deposits: New constraints from U

In October of 2013, Fire River Gold entered into a compromise with its creditors after defaulting on its lending facility. Obligations rated in the B category are considered speculative and are subject to high credit risk.

## HALO RESOURCES LTD

The mining method employed is a combination of transverse and longitudinal stoping, followed by paste backfill, on 30 metre sub-levels.

## GREENSTONE

Thus the albitite dyke is ca.

## 2010 Abstract Archives

Kaukonen 2 1Department of Studies in Geology, Karnatak University, Dharwad — 580 003, India 2Institute of Geosciences, University of Oulu, P. Witwatersrand, Boddington Cadia, Sukhoi Log or Carlin the different enrichment processes occur millions of years apart. São Sebastião shows distinct characteristics than those described for the mesozonal gold deposits in the Rio das Velhas greenstone belt and may depict the deeper roots of the QF gold system.

## Toward an integrated geologic, geochemical, and structural model for formation of the MacLellan Au

Kenora Resident's Geologist's Office T 9005 Debicki, R. Mine development projects require significant expenditures during the development phase before production is possible.

## Resource Development

The relative deposits with more than 250 000 oz Au in combined production of mineralization is syn- to late-deformation and typ- tion and reserves data from Gosselin and Dubé, 2005b.

#### **Peninsula Geological Society Talks since 1954**

The Petrology of Some Marginal Mafic Rocks Along the North Range of the Sudbury Irruptive 1971 University of Toronto Ph. Based on these geochronological data, we have established a comprehensive geochronologic framework, which suggests that the genesis of the Xiadian deposit might be related to the craton destruction and lithosphere thinning in the North China Craton.

#### **Theses and Dissertations in the area of earth and environmental sciences**

Access to the mine is via a ramp system and ore is hauled from the mine and placed on a pad adjacent to the ramp portal. Earth and Planetary Science Letters 168, 101-115. .
