Tornadoes, severe weather in South: Brutal storms also slam the East

The city also passed out 6,000 sandbags to worried residents over the weekend, but water seeped into homes and stranded cars in parking lots and along roadways. Within Brazil the system caused heavy rain and flooding with a state of emergency declared in , after the river overflowed and burst its banks which flooded homes, destroyed crops and caused parts of the highway to collapse. As this system tracks generally northeastward on Sunday, it will tap into plenty of atmospheric fuel to deliver drenching rain and even the opportunity for severe thunderstorms to the South.

Storm hitting Midwest and South before heading to East Coast for Christmas

John Bel Edwards declared a state of emergency. According to the United States , the system was probably either a tropical depression or a tropical storm at its peak intensity. University Corporation for Atmospheric Research.

South Atlantic tropical cyclone

The storm will then begin to tap moisture from the Gulf of Mexico and pump warm and humid air over the South Central and Southeast states. A high wind watch has been issued from the New Jersey coast up to Maine, including New York City and Boston, as winds may gust near 60 mph. Snow could become heavy at times during the day Sunday in the southern and central Plains from Kansas and Oklahoma into the Texas Panhandle and New Mexico.

Storm

Tuesday Typical of winter storm forecasts this far out in time, computer forecast models are not in sync on all the details regarding Tuesday's forecast.

Snowstorm tracker: Follow the storm's path

Later that day a developed just east of , , and by 12:00 , the system organized into a , located about 140 km 87 mi east of.

Death toll rises to at least 11 from severe storm sweeping through the South

At least 11 people have died from severe storms that carved a wide swath through Texas and the South all the way up to Chicago. We collect data from your device to personalize your weather and the ads you see.

Death toll rises to at least 11 from severe storm sweeping through the South

Accumulating snow is also of higher confidence in Austin, Texas; Shreveport, Louisiana; and Memphis, Tennessee. The Associated Press contributed to this report. This material may not be published, broadcast, rewritten, or redistributed.

Death toll rises to at least 11 from severe storm sweeping through the South

The system made landfall in the Florida Keys and posed a serious threat across South Florida, which was already drenched from more than 14 inches of rain last month. Stay indoors until the snow and wind subside. At 00:00 UTC on March 11, the Hydrographic Center of the Brazilian Navy upgraded Cari to a subtropical storm, also assigning a name to it.
