## Natural fiber Research Papers

The Malaysian government motivates constructor companies to use Building Information Modeling BIM on their projects because it can dominate problems such as design error, delay, and construction-overrun costs. Cement is one of the important materials in concrete mixture and use for building construction. The study draw attention to NR production process and its unique properties, how NR was used to solve four major asphalt pavement failures namely rutting, fatigue, thermal cracking, and moisture susceptibility.

## Feeding and fueling China in the 21st century

In this study, cement was replaced by the RHA at 0% until 20% by weight.

## Feeding and fueling China in the 21st century

DMPI Employees Agrarian Reform Beneficiaries Cooperative DEARBC.

## IOP Conference Series: Earth and Environmental Science, Volume 476, 2020

Standardization of building process in medical sectors has provided the ground for specialization levels, ensuring the future buildings will have better quality.
