### GucklHupf

This transformation creates a communicative interior-external space object that provides a shaded, ventilated, temporary location in the landscape while controlling the level of connectivity with the nature and landscape around.

### 37 ideas de GucklHupf

Nesse contexto está inserida a obra de GucklHupf de Hans Peter Wöndl.

### Pizza Kiosk

There are almost no limitations as to design geometry for the inflatable constructions — present day facilities are capable of producing almost anything in fabric. EAMES HOUSE - CHARLES AND RAY EAMES.

### Gucklhupf

. At first glance, it appeared like a giant boxy unit resting on ground, but as its modular walls started moving the unit revealed a tiny living space. I am looking now at structures and ideas of foldings and openings.

### 37 ideas de GucklHupf

This is the case of two projects of Nicholas Grimshaw: the Eden Project located in Cornwall, and the National Space Center in Leicester, both in England. Para proteção adicional, a madeira é recoberta de seis camadas de tinta especial transparente, também utilizado para fazer barcos. Drop stitch structures are fast to inflate and deflate, and it is the only way to make an inflatable surface absolutely flat and create a walking surface.

### Gucklhupf

They have great thermal and sound insulation properties, and tolerate temperatures from -30 °C to + 70°C. No inverno é transformado em uma casa de barco. This one is a project of Italian architect Salvatore Re.

## **Portable and Mobile**

GUCKLHUPF - HANS PETER WORNDL. The first book of its kind to focus on materiality from a design perspective, Material Precedent is masterfully presented, with an impressive collection of crisp line drawings along with historical, material, tectonic, and typological analysis of twentieth-century buildings, providing readers with detailed instruction that traces the traditions and trends of material as the defining premise in the making of architecture. Advantages of this structures are: Their relatively low cost Their simplicity of design and fabrication The flexibility to use the facility for seasonal activities Therefore installing and uninstalling the facility throughout the year, regardless of size.
