## Demokratie und Entwicklung

Africa Spectrum, first published in 1966 by the GIGA-Institute of African Affairs in Hamburg, is an inter-disciplinary fully refereed journal, indexed by ISI, focusing on social science dealing with Africa. With the end of the great debate on a New International Economic Order, the ideal of an international order founded on the economic rights and duties of states as formulated in the UN Declaration of 1974 had to yield place to a new concept of development aid concentrating on individuals, the support of democratization processes, the support of procedural and material protection of human rights and, last not least, a market economy as fundamental condition for individual participation and self determination in cultural, economic and political affairs.

Therefore, the article describes the close interrelationship between the right to development and democratization, especially participation.

## Groundwork of Nigerian History

Regularly articles included are on varied topics, but the journal also publishes special issues devoted to specific subjects. Verbände und

Interessengruppen bilden einen bedeutenden Ausschnitt dieser Zivilgesellschaft. In addition, the journal carries debates, short contributions and book reviews.

### **Lokale Traditionen und globale Erwartungen: Zivilgesellschaft in Südostasien**

It is the only German academic journal exclusively devoted to this continent. The context of constitutional developments in Africa calls for a careful use of the term civil society and for a special focus on non-state or grassroots institutions and their role in the development of an enabling environment guaranteeing, under the pressure of modernization and respect for cultural values and structures, sustainable development and social justice in a peaceful revolution from below. In einer ganzen Reihe von Staaten fanden nach Ende der ersten Legislaturperiode schon die zweiten Mehrparteienwahlen statt, unter anderem in Benin, Sambia und Kenia.

### **Verbände und Interessengruppen im Transformationsprozeß in Afrika: Annäherungen an ein wenig erforschtes Thema**

Zur Rolle von Patron-Klient-Beziehungen in den neuen afrikanischen Mehrparteiensystemen.
