Diagnosis and Treatment

Edited by Edited without comment.

Diagnosis and Treatment

These are a helpful sign of dehydration, but only when the mother says the sunken appearance is recent. This is a sign of shock, from either severe dehydration or sepsis.

Diagnosis and treatment manual for physicians and therapists (2001 edition)

The GAD-7 and the Severity Measure for Panic Disorder are free diagnostic tools.

Merck Manuals Professional Edition

Exercise for the treatment of depression and anxiety.

Medical Care

The age of onset is variable, with a median age of 30 years. Feeling nervous, anxious, or on edge 0 1 2 3 2.

Diagnosis and Management of Generalized Anxiety Disorder and Panic Disorder in Adults

A number of medications are available for treating anxiety. John's wort, tryptophan, 5-Hydroxytryptophan, and S-adenosyl- l-methionine should be used with caution in combination with SSRIs because of the increased risk of serotonin syndrome.

Clinical guidelines

Additionally, many patients with GAD or PD meet criteria for other psychiatric disorders, including major depressive disorder and social phobia.
Carek PJ, Laibstain SE, Carek SM.
