His poetry is polished and pure; the product of a mind too judicious to commit faults, but not sufficiently vigorous to attain excellence. I therefore took it into my hands with all the expectation, and read it through with all the attention due to a treatise that made such a noise at its coming abroad, and cannot but confess my self mightily surprised, that in a book, which was to provide chains for all mankind, I should find nothing but a rope of sand, useful perhaps to such, whose skill and business it is to raise a dust, and would blind the people, the better to mislead them; but in truth not of any force to draw those into bondage, who have their eyes open, and so much sense about them, as to consider, that chains are but an ill wearing, how much care soever hath been taken to file and polish them. The tragedy of Cato, which, contrary to the rule observed in selecting the works of other poets, has, by the weight of its character, forced its way into the late collection, is unquestionably the noblest production of Addison's genius.
