## Solving Your Customers' Problems

You may select the month and the year within a range of the years 1800 to 3999. This results not only in lost productivity, but also multiple problems in miscommunication. The Poincaré conjecture states that this is also true in dimension 3.

## Word Problems Worksheets

Recently, a new learning paradigm called progressive learning technique has been developed. In iteration  $t$ , an online algorithm receives a sample,  $x_t$  and predicts its label  $\hat{y}_t$  using the current model; the algorithm then receives  $y_t$ , the true label of  $x_t$  and updates its model based on the sample-label pair:  $x_t, y_t$ . It can be categorized into one vs rest and one vs one.
