## AP Calculus AB Exam

During Part B, you may not use a calculator, and though you are allowed to return to working on Part A questions during Part B, you must do so without a calculator. Show all the steps you took to reach your solution on questions involving calculations, even if a question may not explicitly remind you to do so. Unit 7: Differential Equations Aspirants will learn about how to solve the certain differential equations and apply that knowledge to grow deeper for better understanding of exponential growth and decay.

## AP Calculus Exam Prep

Accessories such as CD, codes, toys, may not be included. Make sure you have a good graphing calculator and are familiar with its features. Instead, you must show every step of your work in a logical progression toward the answer.
