Struggle Towards Self

The process is reminiscent of a tapeworm cure in which parts of the worm are eliminated; it will regenerate and keep sapping our strength until the head is removed. And the ways in which we try to make others accede to our claims are also intimately connected to our coping strategies.

Neurosis and Human Growth: The struggle toward self

But the foremost element in their conscious experience is self-criticism, a feeling of guilt for not being the supreme being. Throughout, she outlines with penetrating insight the forces that work for and against the person's realization of his or her potentialities. Her examples from her practice as a psycho-analyst showed a real compassion for her patients as individuals and that her work was based upon a real caring for people and was not just an intellectual exercise.

Neurosis and Human Growth: The Struggle... book by Karen Horney

Or they may rebel in a more active way by insisting upon doing only what they please when they please. Horney a Neo-Freudian, also compares her theory of neurosis to Freud's theory effectively. · The expansive type, for whom mastery is crucial, should be all things to all people, should know everything, and should never err.

Neurosis and Human Growth : The

Neurosis and Human Growth : The Struggle Toward Self

We cannot grow if we indulge in self-idolatry and consistently attribute our own shortcomings to the deficiencies of others. We do not need an inner strait jacket with which to shackle our spontaneity, nor the whip of inner dictates to drive us to perfection.

Neurosis and Human Growth: The struggle toward self

One of the frequent shoulds, for instance is that one should never feel hurt. It is the culmination of a life's work from a uniquely intelligent and caring person. However, unlike a tapeworm cure, every step counts in the process of coming back to ourselves.

Neurosis and Human Growth: The struggle toward self

One of the most original psychoanalysts after Freud, Karen Horney pioneered such now familiar concepts as alienation, self-realization, and the idealized image, and she brought to psychoanalysis a new understanding of the importance of culture and environment. Many of these demands are of a kind which no human being could fulfill. Eventually we come to identify so completely with our idealized image that we become the image—the idealized self—a change in the core of our being, in our feeling about ourselves.
