‘Forced’ is never fair: What labor arbitration teaches us about arbitration done right—and wrong

The tendency is to construe express powers broadly. *Iskale v Turkmenistan* A highly readably dissent thanks to its literary, scholarly and, not least, pedagogical approach in addition to its incisive analysis is the dissent by Prof Georges Abi-Saab to the Abaclat investment arbitration.

[Decision Number]

This is easily explainable by such awards having scant persuasive value and offer dull reading.

However, this clause was relatively generous in that the business paid all fees unless the action was determined to be frivolous and a action remained available; these types of protections are recommended for the contract to remain enforceable and not.

But Ron Chapman, a lawyer with Ogletree Deakins, says the Supreme Court ruling will encourage more employers to use them.

[Decision Number]

The percentage of workers whose employers require them to give up the right to go to court in exchange for their jobs has increased dramatically over the past 25 years, from just 2 percent in 1992 to over 55 percent in 2017.
