you have a special needs adult child that care never stops.

### Children with Disabilities: Understanding Sibling Issues

Wait-lists for residential placement often are very long.

### Siblings of Children with Disabilities

MuiPaper-elevation9 {box-shadow:0 5px 6px -3px rgba 0,0,0,. In some cases, siblings experience parentification where they are expected to have many responsibilities for themselves and their sibling, developing duties similar to those of a parent and overlooking their need to act like children.

### Dysfunctional Family with Threatening, Violent Brother

There is so much to think about: medical treatment, another opinion, insurance, money, weariness, and wondering why it happened to you. If the behavior only begins when you interact with them, just stop doing so.

### What happens to developmentally disabled as parents age, die?

When this photo was taken I was 4 or 5 years old and taking care of my sister while she was in one of her spells.

**Grieving the Death of a Sibling is one of the most neglected types of grief.**

### Sibling Bullying and Abuse: The Hidden Epidemic

As I grew older, one of my most pressing concerns was what would happen to Karen as she became an adult. But when

I am looking for a Community that she can be independent BUT have support groups, activities, therapy, life skill support.

### **The Effects of an Older Sibling Taking Care of a Younger Sibling**

Families are expected to care for an infant or young child who is very dependent, and to provide experiences that eventually will lead to the independence of that person. About a young girl and her sister who uses a wheelchair, suitable for pre-K through grade 3.
