The descriptions are great and here's an exciting concept for those of us who knit and crochet - the yarn used in the projects is actually available without taking out a second mortgage on your house or driving 30 miles to the nearest specialty store!! If you love Hello Kitty, bohemian 70's inspired fashion, and Japanese style you will love these supercute projects. Even the author's picture in the back is adorable.

On the plus side, there are over thirty patterns in this book for everything from amigurumi to scarves and hats and even wire jewelry. I like that this book includes patterns that aren't amigurumi.
