## Illinois State Geological Survey Publications

Eventually this new land was colonised by lycopod forests similar to mangrove swamps today, which were later drowned by the ongoing cycle of land subsidence and sea-level rise. Barns Ness is also a good place to appreciate the agricultural and economic importance of limestone in the past and present.

## Dunbar

Geologic data are compiled, including deposit type, related deposit types, deposit size, host rocks, surrounding geologic terrane, wall rock alteration, nature of ore, mining and ore processing methods, deposit trace element geochemistry, primary mineralogy and zonation, secondary mineralogy, soil and sediment signatures, topography, hydrology, drainage signatures, climatic effects, and potential environmental concerns Plumlee, 1999; Plumlee et al. Our staff will check the database as it is being developed to ensure that data are being entered accurately.

Davies, A, McAdam, A D and Cameron, I B. District Id is the key attribute used to link all appropriate supporting tables to the District table.

## Dunbar

In the east, these rocks are overlain by conglomeratic rocks of Lower Devonian age 430—390 Ma that were once deposited over the eroded surface of the Lower Palaeozoic rocks by large rivers. The British Ladies and the Ladies Home Internationals have also enjoyed Dunbar as a venue. The diverse bedrock that underlies East Lothian has been sculpted by the erosion of rivers, glaciers and the sea over recent geological past the Quaternary period.

OR/14/063 Site assessment

The sequence of Carboniferous rock units in East Lothian is shown in Table 1. Geological Survey, Open-file Report 95-831, 272 p.

**: New Mexico Mines Database**

In 2018 they rowed to all of the named islands in the.

The Drillhole table is linked to the chemistry, stratigraphy, and other supporting tables by the Hole id key attribute. Although considered extremely rare and a site of national importance this site is in the middle of an area planned for quarrying. Figure 1 Location of East Lothian Council area pink outline and the distribution of 1:50 000 scale BGS geological map sheets blue lines.
