Mini

Meet Requirements for IND or IDE Clinical research that involves investigational therapeutics, vaccines, or other medical interventions including licensed products or devices used for a new purpose should be performed under a Food and Drug Administration FDA IND or IDE. Funding history should include the year, funding agency, amount, and purpose.

Community Development Block Program (CDBG)

We placed security personnel on scene in the ASU during the 8 hours of operation.

Office of Research & Development

Include financial opportunities you expect to be affected by the proposed research. Also see the from the. For more information see NIH's.

Occupational Health and Safety Research Grants

Use the guidance below to supplement that information. After award but before you begin the clinical trial, you need to submit a detailed monitoring plan as part of your protocol, first to your IRB or IEC and then to your program officer for our review and approval. Check out the page to find out what the applicant and the grant-making agency do in the lifecycle.

Funding Opportunities: Application & Funding Policies

NIH also requires DSMBs for other clinical trials, e.
