**Religious roots of Buddha's birthplace traced back 2,600 years**

The newly published results argue for a significantly earlier date.

**Buddhist Short Stories from Kidsgen**

Throughout the day, she takes care of the baby and her four-year-old son. So also the fish have attacked you when you came their way. The classic myth of the birth of—or rather, of the child named Siddhartha who would grow up to become the Buddha—goes like this: There was a beautiful who was the wife of King Suddhodana, the ruler of the Shakya clan of Kapilavastu in a region that now straddles the border between India and Nepal.

**The Birth of the Buddha**

The baby evoke seven directions—north, south, east, west, up, down, and here.
