Jason Whitlock: Dems use race as distraction while ushering in socialism

This is hardly surprising when you consider how the latter has failed ordinary Americans.

US liberals embrace socialist policies destroying my home, Venezuela

This differs from the capitalist system in which individual efforts trump the collective and the free market determines the distribution of goods. Alexandria Ocasio-Cortez endorsed paying for the proposal by asking the Federal Reserve to.

Why are Americans warming to socialism? Because capitalism has failed them

The next stage after capitalism, according to Marx, would be a socialist form of government. The welfare programs, many minimum-wage and nationalizations implemented by their regimes resulted in a colossal government deficit that the central bank covered by simply printing more money — leading to rampant inflation. Marxism is the theoretical framework which lays the foundation for the economic and political philosophies of socialism and communism.

Fascism Is Socialism: Here's The Proof

Sandra Campbell is a writer, actor and corporate language trainer. Each variant of socialism does indeed have its own distinctive path. Even worse, in recent weeks, Democratic Reps.
