Ballots From Above: NASA Astronaut To Vote From Space : NPR

They are building a new homeworld on in the and have asked for aid. Old threads from 2018 exist detailing this exact issue.

The Apollo 11 Conspiracy; What Did NASA Really Find on the Moon?

MGM Studios This slick thriller plays a bit like an interplanetary version of Dead Calm with a 22nd-century medical rescue ship responding to a distress call from miners on a comet and picking up a dangerous stranger who smuggles aboard an alien artifact that exhibits strange powers. Training of dogs continued upon arrival; one after another they were placed in the capsules to get familiar with the feeding system.

100 COOL SCI

He even missed Armstrong's famous first words on the surface, as he was on the other side of the Moon, cut from radio communication with the rest of humanity. A company seeking to colonize a distant planet teleports a crew to investigate, only to discover that it's inhabited by giant killer. Unless it is changed, you need to have one of the missions active- to get that script.

STS

USSR 19 August 1960 First flyby. You know the chances of finding Evelyn are close to zilch, right? USSR 4 October 1957 First animal in orbit, the dog.
