E With respect to pollutants for which high risks of adverse public health effects may be associated with exposure to small quantities including, but

not limited to, chlorinated dioxins and furans, the Administrator shall by regulation limit the use of offsetting reductions in emissions of other hazardous air pollutants from the source as counting toward the 90 per centum reduction in such high-risk pollutants qualifying for an alternative emissions limitation under this paragraph. ESECA thus had little impact, and most of it has been repealed.
