Painting in Florence and Siena After the Black Death: The Arts, Religion ...

The artistic loss was huge. The various petrified characters do not seem to communicate apart from following the required ritual.

Column: Bubonic plague in Europe changed art history. Why coronavirus could do the same

To analyze art made in the wake of a devastating plague, Meiss brought politics, economics, social relations and their tangled interactions into the very center of the study of art history.

I came to this book after reading. Two cities at mid-century -- Economic crisis; Political and social change; The Black Death; Economic and social consequences of the plague; The Effect upon culture and art -- III. With notes, appendices chronological table, facts about the painters, some recent criticism of Orcagna and a new polyptych by Andrea da Firenze, index and index supplement.

He stood apart because he changed the way we think about Western art of the previous 600 years. The new form and content. He had lived through another epic human tragedy, one that saw 70 million die.

Painting Florence Siena After Black Death, First Edition

No one was spared — not peasant, aristocrat or cleric. Meiss's thesis is generally that during and just after the Black Death Florence and Siena reverted to a more Medieval model of art. I admit, that's a guy I haven't thought of in ages.

Painting in Florence and Siena after the Black Death: The Arts, Religion and Society in the Mid

Meiss's thesis is generally that during and just after the Black Death Florence and Siena reverted to a more Medieval model of art. The new form and content. This is not an easy read and it deals with art that is not easy either.
