Addison's Disease

Since constant, severe pain relentlessly stimulates the HPA axis, pathologic changes in adrenal tissue—with both hypertrophy and atrophy as described by Addison—makes logical sense. Description: Birmingham Alabama: The Classics of Medicine Library.

On the constitutional and local effects of disease of the supra

. Hormone abnormalities in uncontrolled chronic pain patients: use of hormone profiles.

on the constitutional and local effects by addison thomas

Both patients presented with severe constant pain, lethargy, weakness, hypotension, tachycardia, yellowish skin discoloration, and pigmented lesions.

On the constitutional and local effects of disease of the supra

Special Edition - Facsimile of 1855 Ed. In just the past few years, astute practitioners have begun testing chronic pain patients with hormone profiles.
