He then used the amassed evidence in the second volume to make a quire-by-quire analysis of the production history of the Folio, dealing with the typesetting, proofreading, presswork, and distribution returning types to their cases for each section. Indeed, there is in this field a longer tradition of paying attention to paper, since cancel leaves leaves pasted to the stubs of excised leaves are a prominent characteristic of eighteenth-century books.

Twyman is both a historian of printing, with a specialty in the history of lithography, and a graphic designer; but he also writes papers such as these two that recognize the effect of spatial arrangements in cognitive processes. Subject to statutory exception and to the provision of relevant collective licensing agreements, no reproduction of any part may take place without the written permission of Cambridge University Press. Different editions, when they employ different type or layout, are not hard to distinguish; but sometimes new editions consist of line-for-line resettings of previous editions, in the same type font, and in these cases a closer examination of spacings is required.
