Strategies for controlling biofouling in membrane filtration systems: challenges and opportunities

Environmental Protection Agency's Unfinished Business and a range of other national and international environmental assessments that had been carried out worldwide, to develop a list of 28 potential environmental hazards that included most issues judged important in one or more of these studies.

15 Global Challenges for the Next Decades, by Jerome C. Glenn

Energy production, consumption, and consequences. New York: Oxford University Press.

15 Global Challenges for the Next Decades, by Jerome C. Glenn

Many countries have introduced scores of new reforms and procedures—such as the release of business directories, franchising, lease purchase, service, credit rating, collection agencies, industrial estates, free trade zones, and credit cards. Few studies provided recommendations for strategies to overcome the implementation challenges they experienced.

15 Global Challenges for the Next Decades, by Jerome C. Glenn

In: Human Choice, , USA, 1999, p. But their practical application in daily social life had to wait for the mental stage of development to emerge.

Strategies for controlling biofouling in membrane filtration systems: challenges and opportunities

The fact that experience precedes knowledge can be taken to mean that development is an unconscious process that gets carried out first, while knowledge becomes conscious later on only. This could continue the brain drain problem, yet online computer matching systems can connect those overseas to the development process back home. Landscape structure and biological control in agroecosystems.

Challenges and opportunities for implementation of substance misuse interventions in conflict

Indeed, some recent research finds exactly this type of heterogeneity. The level of people's education, intensity of their aspiration and energies, quality of their attitudes and values, skills and information all affect the extent and pace of development.

Top Challenges Managers Face and How to Deal With Them

New York: Oxford University Press. Jim: As a profession, I hope we come out of this crisis stronger by collaborating and working together.

Green chemistry: challenges and opportunities

Improving the survival of children, their education, and the status of girls and women has been correlated with and may lead to a desire for smaller families. Cambridge, UK: Cambridge University Press.
