## Explain (Cross / Auto) Correlation, Normalize & Time shift

For example, prior to starting any new construction that involves excavation, it is important to locate existing underground utilities such as underground power lines, gas lines, phone lines, fiber optic cable conduits, CATV cables, sprinkler control wiring, water pipes, sewer pipes, etc.

## Femtosecond laser range finders based on traditional cross correlation method and frequency resolved dispersion compensation method

System and method for simultaneous localization and map building 2003-11-04 2010-12-14 Aqua Products Inc. According to another embodiment, the attached accessory is a Buried Electronic Marker exciter, which transmits a signal to which buried markers may respond, which response is read by the locator to identify the marker and any information embedded in it.

## Explain (Cross / Auto) Correlation, Normalize & Time shift

The number of antennas shown is exemplary only.

## Usability analysis of scan matching techniques for localization of field machinery in avocado groves

A sonde generates a more complex electromagnetic field than that produced by an energized line. The basic configuration of the target consists of an upper target 3202, a visual identification number in large lettering 3206, an optional lower target 3204, and a stand, here shown as an adjustable tripod. Thus the projected image has a very limited depth of field.

## Rangefinders

The British sometimes got into trouble with their rangefinders, especially in conditions of poor visibility for example, at the Battle of Jutland.

## **Rangefinders**

According to one embodiment, a portable locator includes at least three support structures see FIG. The data is based on a recent survey I conducted of the top-ranked shooters across the country in both the Precision Rifle Series PRS and National Rifle League NRL. Pool cleaning robot 2008-10-08 2011-01-04 The Richard M.
