It was no longer instruments that were wanted; it was the opportunity of employing them. Nevertheless, he remains a moralist; and in his positive teaching he is one of the greatest moral teachers the world has ever seen. At present, speculation would be premature; what we want are facts—facts regarding the distances of these anomalous objects—whether or not they fall within the range of the methods of measurement at present available; facts regarding their apparent motions; facts regarding the specific differences of the light emitted by them: its analogies with that of other bodies; its possible variations in amount or kind.
