Forest Romania 2021(Zizin)

Romania faced major problems following the breakup of these collective farms and the resulting uncertainty of ownership. The new road and planned wood harvesting will destroy a forest with an average age of more than 200 years.

search

The Communist government equated a belief in the paranormal with madness and state-sabotage, and Barnea lost his job in a country which had no support for the sacked. The foundation for this increase was a series of large power projects, each having a capacity of 200,000 to 1,000,000 kilowatts.

Trees of Romania

The park stretches along the beautiful Cerna river and the surrounding mountain ranges, which were covered until recently with mostly untouched beech and endemic black pine forests. The food industry—formerly the foundation of the economy—has been all but eclipsed by the rapid development of other branches.

Buying Forests in Romania

Two-row barley is cultivated in the , , and areas, where it is used for brewing.
