## Learning strategies: a synthesis and conceptual model

Several experimental studies have shown that groups outperform individuals on learning tasks and that individuals who work in groups do better on later individual assessments.

## Strategies to Promote Inquiry in Your Classroom

From basic surveys about favourite colours and foods in Forms to collaborative thinking routines in Google Docs and Drawing, Educational Psychology Review, 16 3 , 235—266.

## What matters in Indigenous education: Implementing a Vision Committed to Holism, Diversity and Engagement

The reason for this low effect seems to be related to using problem-based methods before attaining sufficient surface knowledge.

## How to Begin Asking Authentic Learning Questions Right Now

But in order to respond to this deep question, we head back to the start of our inquiry: What is creativity, and why does it matter? Learning from the land: Indigenous land based pedagogy and decolonization.

## How to Begin Asking Authentic Learning Questions Right Now

Whether it is playing tic-tac-toe, who can reach my hand when I wear high heels, stella-ella-ola, solve the riddle, a moon walking contest or the latest version of rock-paper-scissors which requires going into the splits! These sites can be part of your asynchronous offerings - something learners can check out in their own time but then discussed and reflected upon in small groups or morning meetings.
