A giant crocodile came into Welewatta — Navimana road in Matara has been released back to the Nilwala river. Eventually, the crocodile community will even out, says Webb, with a proportionate number of small, medium, and large animals, but in the meantime, with more big crocs, the risk of fatal attacks could escalate. The current management program and educational efforts are, the experts believe, working as well as can be expected, both at keeping people safe and encouraging them to keep crocodiles around.

They then dump all of their gasoline into the currents behind them which the beast is swimming through.

THE CROCODILE DIES TWICE.

You can see the fake photo. In some ways, Pitman is like a matador, stepping into an arena to battle against an outsize opponent. Soon after his downfall, Vivi revealed the truth to the astonished crowd.

Crocodile 2: Death Swamp (2002)

Some had admiration for the croc, especially because he had been relocated twice and found his way back. He became aggressive at several points during the capture and twice broke restraining ropes before eventually being properly secured. Note: I am really skeptical about this claim.
