Plastic bullet

However, they were often fired directly at people from close range, which resulted in three people being killed and many more badly injured. The measure never made it out of committee. Also, any semi-automatic pistol with a fixed magazine holding more than 10 rounds.

BANNED: A State

WRTV also contacted attorneys for the teachers for a statement on the lawsuit and we have not heard back. The L21 PBR is fired from a rifled weapon which gives greater accuracy when used with an optical sight.

17 killed during 'Troubles' by plastic or rubber bullets

This gives the bullet an aerodynamic shape.

Police allowed plastic bullets 'for use as last resort'

In 1982, the called on member states to ban the use of plastic bullets.

Police allowed plastic bullets 'for use as last resort'

Lead and lead alloys eventually become the material of choice for bullet manufacturing. In settling that case, Oakland agreed to new crowd-control and management policies.
