**Bird King Spring: Animals of the Valley # 2 eBook : Leigh, Margaret Eleanor: mikhmon.us.to.au: Kindle Store**

Because mosquito larvae is a huge staple in their diet, Nile tilapia have been used as a way to fight malaria in countries like Kenya where there are high rates of the mosquito-borne disease. African knifefish Found on the vegetated edges of the Nile basin, the African knifefish resembles an electric eel and possesses similar but weaker electrifying capabilities.

## Donate Today

Fun fact: If two African knifefish swim too close to each other, their electric fields will collide and distort their sense of surroundings, making them confused and debilitated. Help the homeless animals every time you do your grocery shopping and it won't cost you a thing! Reaching up to 2m long and 200kg, these beasts are easily the largest fish found in the Nile.

## Canada's forgotten rainforest

Canfor announced it will reduce operations at sawmills in Prince George and Mackenzie. Nile perch The Nile perch is one of the largest freshwater fish found in the world.

## Exploration of the Valley of the Amazon, Vol. II

Little more than a decade ago, there were 18 deep-snow caribou herds, but eight of those herds no longer exist.

Your Gift Today Helps Save More Lives Your contribution to AFV goes straight to work helping thousands of animals—both at the shelter and through animal programs all across the communities we serve. Every single one of you who reads and shares our articles is a crucial part of building a new model for Canadian journalism that puts people before profit. Old-growth management areas provide only minimal protection because they are routinely moved and chopped at the discretion of district forest managers and include young forests and replanted clear-cuts, set aside on the grounds that they will be old in hundreds of years, Connolly says, noting that many are too small and fragmented to protect biodiversity.
