**Author:**

Rice *Oryza sativa* blast disease causes great annual yield losses and quality reductions. BACKGROUND: Rice rooting ability is a complex agronomical trait that displays heterosis and plays an important role in rice growth and production.

**Wei xi wen zi xuan ji (Book, 1981) [mikhmon.us.to]**

We extensively examined 16 rice blast strains and a further genome-wide association study based on genotyping 0.

**Author:**

Grain shape is a key determinant of grain yield and quality in rice *Oryza sativa* L. In this study, a secondary composting experiment was conducted to investigate the effects of concentrated monosodium glutamate wastewater CMGW as a nutrient additive on enhancing the density of functional bacteria in bioorganic fertilizer BOF.

**Author:**

All detected traits exhibited a. . .
