## Theosophy and Platonism: The Seven Principles of the Human Constitution

Giordano Bruno, a Dominican monk burned by the Inquisition for heresy, distinguished between the unknowable absolute and the relative world, in which all perception depends upon the position from which we perceive. From this first triad, which is in reality only a mode of the eternal unity, Being—we derive a second triad which this time concerns the knowing and the known rather than the knower.

It is unknowable and non-describable. Opinion has then been converted into self-knowledge. No doubt many, perhaps most, do succumb to influences of one and another kind.

### Importance of First Principles

Author: Publisher: ISBN: HARVARD:AH6I2I Category: Theosophy Page: View: 391. Reincarnation or rebirth of the soul is but an aspect of perceiving that learning is cyclical, as is everything else in nature. And in that process, it is tested and proved anew by each Adept.

### First Principles Theosophy, Used

The Kama Rupa—the most dangerous and treacherous of the principles. Everything conceivable has something to do with the law of cycles. The general condition of the Orient for two millenniums illustrates the one, the Renaissance in the West the other pole of the influence of outer and inner conditions.

It deems no views -- if sincere -- entirely destitute of truth. Nicholas of Cusa, a cardinal in the Roman Catholic Church who recognized that the earth is a sphere revolving on its axis around the sun, taught that ultimate truth is beyond our knowing. Atma Spirit Esoteric Buddhism altered the nomenclature in an important way: it used the term animal soul for the fourth principle and adopted a new term, human soul, for the fifth.
