Navigating Midlife Using Typology As A Guide PDF Book

Portraying midlife as a time of opportunity rather than crisis, Navigating Midlife builds on Jungian theory and the typology of the Myers-Briggs Type Indicator personality inventory to provide understanding and encouragement through this transition. Millner show how the ability to see our built-in pattern of preferences - our psychological type - clarifies our strengths and weaknesses, validates who we are, and lessens the need to project our demands and desires onto others.
