### US International Trade Data

The contains specific direction for certain goods that are subject to tariff rate quotas TRQ ; the same principles of tariff classification will apply. It shall also be taken to include a reference to that article complete or finished or falling to be classified as complete or finished by virtue of this Rule , presented unassembled or disassembled.

### Harmonized System (HS) Codes

Most, but not all, Sections and Chapters have such notes.

### Understanding HS Code in International Trade

The first published edition applied to the 1988 reference year, and the second edition applied to the 1992 year. This was necessary because the detail in the HS reflects the commodities that were significant in international trade during the 1970s. Exports In the case of the general trade system, export flows come from: 1 The free circulation area, premises for inward processing or industrial free zones; 2 Premises for customs warehousing or commercial free zones.

### Standard Classification of Goods (SCG), 2000 and 2001

There are three types of exports: a Domestic goods originating in the free circulation area or industrial free zones; b Domestic goods comprised of compensating products after inward processing; c Foreign goods in the same state as previously imported.

### Classification of goods

It is also used to provide EU trade statistics. Codes have been assigned to the five and seven-digit level, because some of them were required for data collection. Schedule B is a U.
