Fishes of the family Atherinidae of the Red Sea and the Western Indian Ocean with a new freshwater genus and species from Madagascar

A review of the American species of *Epinephelus* and related genera. Asia - Inland waters Siluriformes Schilbeidae Key to species of *Platytrapius* occurring in China.

Groupers: Types, reproduction, benefits and more

Abstract We present evidence from adult and larval morphology for the monophyly and relationships of Atheriniformes, using other atherinomorphs, mugilids and acanthomorph fishes as outgroups. The most famous is the Bombay Duck, very popular in India, Southern China and Vietnam, both fresh and dried. Pacific, Western Central Perciformes Serranidae Key to the species of *Sacura* occurring in the Western Central Pacific.

FAO Fish and fisheries guides and Books

Asia - Inland waters Cypriniformes Cyprinidae Key to species of *Scaphiodonichthys* occurring in China. Poissons d'eau douce de Madagascar Suite et fin. Annals of the Carnegie Museum 17 3-4 12 : 385-392.

List of Fish Species

Atlantic, Western Central Clupeiformes Pristigasteridae Key to species of *Pellonas* Pristigasteridae occurring in the Western Central Atlantic.

Smith J.L.B.

The top of the head and the snout bear several blue stripes. In the Eastern Pacific from Hawaii to Pitcairn and the Easter Islands, and from southern California, US to Colombia and the Galapagos Islands.
