## Annals of the great strikes

Edwards' *Strikes in the United States 1881—1974* In his book, Edwards charts the development of United States strike patterns, setting them in the context of technical and organizational changes.

## Annals of the great strikes

In Volume 5 of the *Journal*, Charles Tilly and Roberto Franzosi critiqued P. Spine may show signs of wear.

## Strikes in the United States 1881

In their review of Edwards' book, Tilly and Franzosi organize their discussion around three approaches to industrial conflict: the protest approach, the power struggle approach, and the industrial relations approach. In arguing thus, Edwards directs considerable critical attention to the work of Edward Shorter and Charles Tilly, who are the major exponents of the view that strikes in most European countries reflect wider political forces.

## RESPONSE TO BOOK REVIEW: Approaches to Industrial Conflict: A Note on JSTOR

He quantitatively examines three key phases of the strike movement: the impact of industrial change at the end of the nineteenth century, the upheaval caused by the New Deal, and the role of strikes in the institutionalized system of the post-war period. He maintains that his work comes within a broader sociological tradition concerned with the limitations and contradictions, as well as with the strengths, of industrial relations institutions. .

## Strikes in the United States 1881

The majority of pages are undamaged with minimal creasing or tearing, minimal pencil underlining of text, no highlighting of text, no writing in margins.

## Strikes in the United States 1881

Edwards asserts that his analysis goes beyond a defined industrial relations approach.
